

Year 6 Class News 18-22.10.21

I can't believe that the half term is almost over – and what a half term it has been! From watching the children engage with reading following on from the pleasure the children gained with the class reader to enjoying Jewish festival treats.

This week has been as busy as ever and the children have certainly enjoyed their lessons but a particular highlight was in Science when we dissected a pig's heart. The children, as usual, amazed me with their maturity during this practical lesson with many of them wanting to hold the heart and investigate the ventricles, arteries and veins more closely. We have also enjoyed making models, out of Lego, to demonstrate contour lines in Geography.

Next half term will probably be busier still as we begin our preparations for Advent. Look out for the class overview, early in the half-term, that will share all the skills that the children will be learning in all the areas of our Touch the Future curriculum. Many of the children are very excited that Year 6 have been designated a vegetable plot in our beautiful school garden and will have some homework to complete regarding this during the October break.

The children have worked exceeding well, this half-term, and I am very proud of all they have achieved. I would like to thank you for your support in getting them to school on time, supporting their reading at home as well as supporting them with their new homework schedule. Don't forget if there's anything that you would like to ask or that you feel I need to know you can contact me on [y6@stoswaldscatholicprimary.co.uk](mailto:y6@stoswaldscatholicprimary.co.uk).

Have a wonderful half term holiday and I look forward to seeing you and the children following the break,

Mrs Crook
