

# St Oswald's Year 2: Weekly Update

29th November - 3rd December 2021

We have had another busy week in Year 2 as we work our way through our 'Touch The Future' curriculum that we follow in St Oswald's. We have been learning and honing our skills across the subjects. Here is a snippet of what we have been working on this week:

## PE:

This week in PE we have been focusing on static balance. The children were using their strength and control to hold a seated balance position and played games whilst holding this position.

## It's Snow Time!

The whole class was very excited when we came into school on Monday to find the field and gardens covered in snow. We wrapped up, went outside and enjoyed finding footprints of animals as well as having a snowman building competition!

Maths:

This week in Maths we have focused on money and recognising coins in different ways and in different amounts. Here the children were playing snap and pairs to try and find matching amounts.

## Computing:

This week in computing we have continued to look at games. We talked about what the PEGI rating system was and how it keeps them safe when playing games. They then had a look at a game and how it worked.

Stars of the week:

A **HUGE** congratulations to our stars of the week this week Jessica and James! You are both superstars!

I hope you have all enjoyed reading and questioning the children on their books and once again I thank you for all you have been doing with your children at home.

It has been great working with the children this week and I look forward to more fun learning next week.

All the best,

Mr Coppenhall
