

Y6 Class News 10th January to 14th January 2022

I hope that you are all keeping well despite the rising cases of COVID in school. It's still very cold however we are ventilating the classroom and have, on a small number of occasions, opened the classroom door to ventilate. We all felt cold when this had to happen so remember to add layers to keep as warm as possible.

The children have been working hard, as usual, in Year 6. Highlights this week have included Battle of the Beaks in Science, The Highwayman in English and progress in PE. The children were acting as birds with a variety of beaks style to demonstrate how beaks would adapt depending on their environment, feeding time became quite competitive! They have been analysing The Highwayman and this week written some alternative endings where different characters had their chance to get revenge on other characters for their actions. And in PE it was a delight to see the progress all the children made during the Autumn term because when Mrs Brady, Matty and I completed their termly PE assessments everyone was able to complete challenges that they could not do in September – well done Year 6!

We look forward to the busy week ahead as we continue to work with fractions in Maths and learn some new vocabulary during our Geography lesson about rivers.

Take care and stay safe.

Mrs Crook
