

Year 3 Class Blog - 2/10/2026

It has been a lovely, busy time in Year 3! The children have been working incredibly hard and have shown lots of enthusiasm and curiosity in their learning.

In Science, we have been learning about the human body and our muscles. The children have loved discovering how our different muscles work and were amazed to learn that some muscles work without us even having to think about them!

In RE, we listened to the beautiful hymn, *Laudato Si*, thinking about creation and how thankful we should be for the wonderful world around us.

The children had great fun creating actions to go along with the hymn.

In RSHE, we have been learning about friendships. We have talked about some of the challenges friendships can

bring and explored how kindness,
listening and talking can help us
overcome difficulties.

In PE, we have been enjoying our
fitness activities and learning about
different exercises that help us to
keep our bodies healthy and strong.
The children have shown fantastic
effort and have enjoyed encouraging
one another.

We are so proud of how hard Year 3
have been working and the positive
attitude they bring to school each day.
Well done, Year 3!

Kind regards. Mr Critchley
